

Meeting societal challenges through medical education and research: LKCMedicine, NTU-ICL SG

Progress from Univer-Cities Conference 2016

Professor James Best

Dean Lee Kong Chian School of Medicine

Societal challenges

LKCMedicine must produce doctors who:

- address the needs of an ageing population
- are prepared for the era of precision medicine, mega data and AI
- practise medicine with humility, integrity and compassion

Education

Research

Partnerships

Education strategy

Be distinctive

Draw on strengths of both parent universities

Emphasise professionalism, wellbeing, collegiality/
teamwork

Achievements in Education

Family medicine is prominent in our teaching and our Faculty

PhD programme has attracted high proportion of Singaporeans and clinicians

WHO Collaborating Centre for Digital Health and Health Education announced by DG WHO 30 Jun 2019

Research strategy

Collaboration >>> competition

Focus on quality and national significance

Invest in early career faculty

Achievements in Research

Population Health and Global Health

Neuroscience and Mental Health

Regenerative, Reparative and Rehabilitation Medicine

Rehabilitation Research Institute of Singapore

A Collaboration Between:

Partnerships

Adding years of healthy life

NTU

- embedded
- supervised
- novel

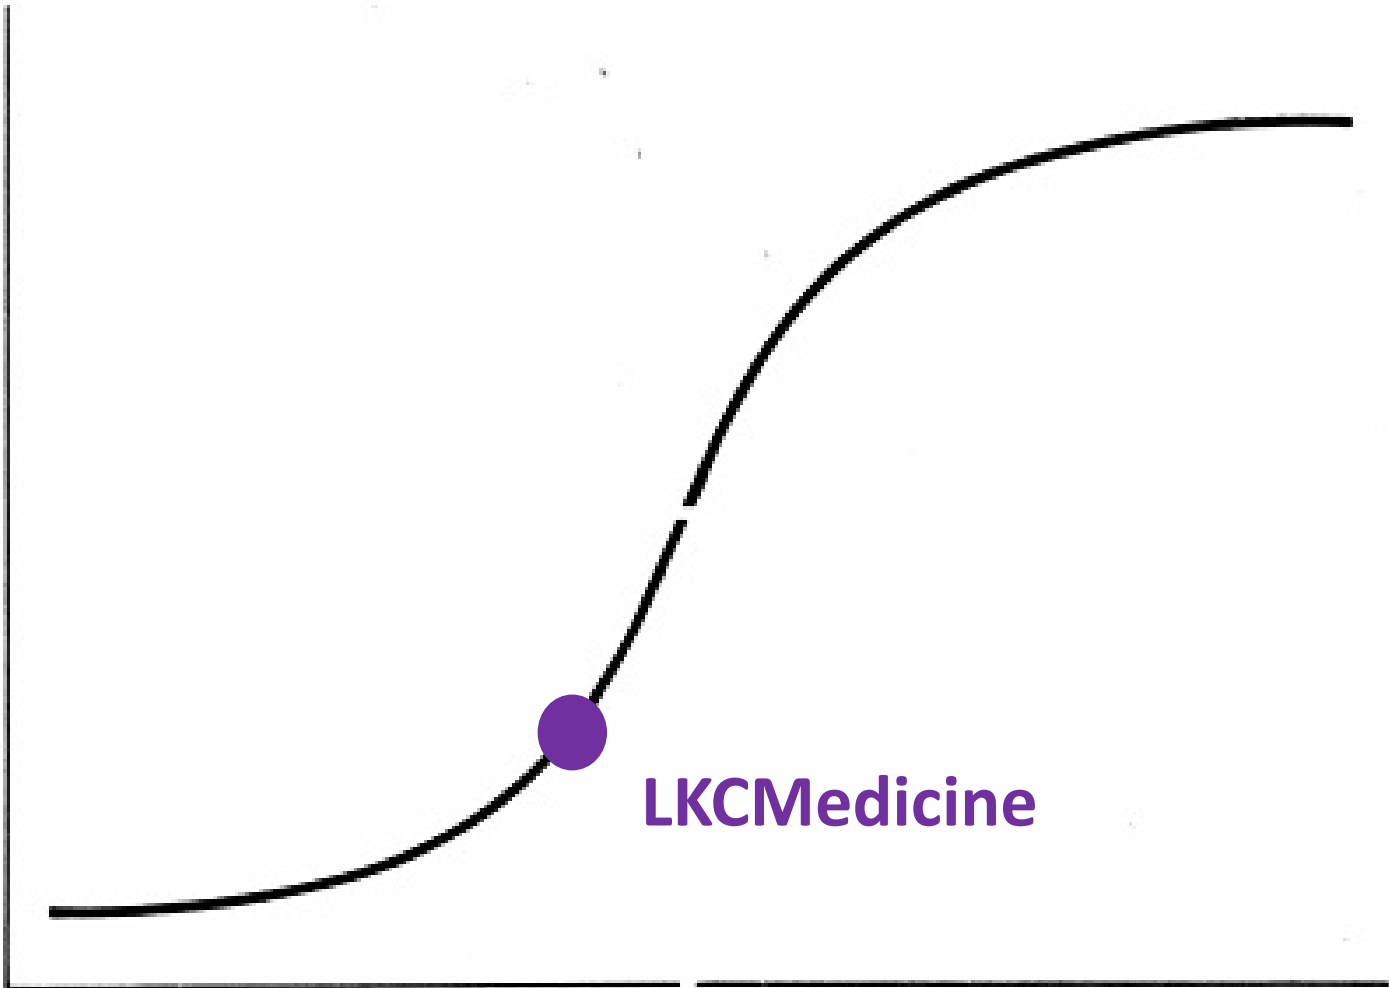

Imperial

- distant
- encouraging
- interested

NHG

- enthusiastic
- uncertain
- complex

THANK YOU
