SCHOOL OF BUSINESS

Welcome to our Business School, where cutting-edge courses and robust industry linkages converge to prepare you for the dynamic business world. We continuously update our curriculum to reflect the latest industry developments, ensuring you are well-equipped to excel. Transform your career aspirations into real-world success with us!"

Associate Professor
DING DING
Dean
School of Business

DREAM, DARE, DO.

SUSS is a powerhouse of change, unleashing the potential within individuals and propelling them to be impactful change-makers.

Fueled by a deep sense of purpose, their transformations transcend personal growth, enriching not only their lives but also the lives of those around them.

Their unwavering commitment empowers them to conquer challenges, embodying the unstoppable '**Dream, Dare, Do**' spirit of SUSS.

United in action, we dream big, dare greatly, and do what it takes to leave an indelible mark on our learners, industry, and community.

The School of Business (SBIZ) offers various programmes designed to prepare managers and strategic thinkers for our highly competitive business world. Our programmes ensure that graduates are equipped with broad business fundamentals in general and have the capability to fulfil the specialised needs of their chosen industries in particular. The unique paths that are set out for individuals to choose from help to stimulate and arouse their enthusiasm, shaping them to be outstanding and distinctive individuals. Graduates can expect to have a good mix of theoretical learning and practical applications that will broaden their managerial knowledge and skills, strategically positioning them to be effective leaders and decision-makers.

Singapore University of Social Sciences (SUSS) is a member of AACSB International — The Association to Advance Collegiate Schools of Business: aacsb.edu/about and the European Foundation for Management Development. The EFMD membership signals a commitment to contributing to the global dialogue on the future of management education and addressing societal challenges through impactful teaching and research: efmdglobal.org.

BACHELOR OF ACCOUNTANCY

Find out more

The Bachelor of Accountancy programme is designed to provide students with broad general business skills, as well as strong academic and professional training in financial accounting, management accounting, assurance and taxation.

The programme is taught by faculty with globally recognised qualifications and extensive experience in academia and industry. Care has been taken to ensure that the programme is industry relevant, from the appointment of industry leaders in our programme advisory panel, to the involvement of senior staff from accounting firms in the development and presentation of our courses.

The programme is ideal for accounting executives looking to upgrade their accountancy skills and knowledge for accounting-related employment and to become a Chartered Accountant of Singapore.

Applicants to this programme will be assessed based on academic merit, relevant work experience, motivation for pursuing the programme, and communication skills.

All shortlisted candidates will be invited for an interview, and offers will be made only after the completion of the admission interviews

This programme is designed to aid students in their progression towards qualifying as a Chartered Accountant of Singapore. Accounting-trained professionals are hired across all industries from corporate to banking to public agencies. They are sought after in a variety of occupations from accountants to auditors and in areas such as risk management, financial analysts, tax professionals and more.

The Bachelor of Accountancy degree is accredited by the Institute of Singapore Chartered Accountants (ISCA) as a Direct Entry Degree for the Singapore Chartered Accountants Qualification Professional Programme and grants exemptions to the Taxation and Financial Reporting professional examinations.

Whom is this for?

This programme is designed for working adults and mature learners who are in the accounting industry and/or inspire to be Chartered Accountants of Singapore.

It also benefits professionals from other fields who are keen to transition into accounting-related roles and expand their career opportunities.

This is a **direct honours** programme. To graduate with an honours degree, students will have to satisfy all university requirements and complete a **total of 170 credit units (cu) of courses**, comprising 30 cu of SUSS Core courses and 140 cu of major courses. Graduating students who meet the eligibility criteria for an honours classification will be awarded an honours degree based on aggregate academic performance measured by the cumulative grade point average (CGPA) assessed throughout the degree programme.

Programme Structure

Curriculum Highlights

- Financial Accounting
- Financial Reporting
- Accounting for Decision Making and Control
- Strategic Management Accounting
- Taxation of Companies and Partnerships
- Business Valuation
- Corporate Governance and Risk Management

The Bachelor of Accountancy programme has equipped me with the ability to understand how businesses work. The curriculum which includes interdisciplinary modules has also developed my critical thinking skills, enabling me to stay adaptable in the business world where the only constant is change."

Ng Zhi Yuan
Alumnus

BSc BUSINESS

Find out more

The Bachelor of Science in Business programme provides students with essential business concepts, theories, and practical skills that can be applied to real-life business contexts and decision-making scenarios. Our courses equip students with knowledge and skills in the main functional areas of business, such as customer relationship management, project management, finance, operations, strategy, sustainability, etc., that are taught through real-world cases, discussions and practice-oriented assignments.

Programme Overview

The programme offers a broad-based education in business while maintaining depth in critical business functions. It prepares graduates for careers in general management, and also provides a strong foundation for specialisation in specific functional areas of business if they decide to do so later.

All shortlisted candidates will be invited for an interview, and offers will be made only after the completion of the admission interviews.

Students may pursue Business as a single major or in combination with a minor to suit their interests and career goals.

Career Prospects

Graduates of this programme are well-equipped to take on diverse roles across various industries. Potential employers include consultancy firms, financial institutions, marketing research firms, government agencies, service-oriented businesses, and manufacturing support functions. Business graduates can work across all major functional areas of a business value chain, such as operations, procurement, logistics, marketing and sales, entrepreneurship, as well as business support activities.

The Bachelor of Science in Business programme is ideal for those who want to seek a comprehensive understanding of core business principles as well as in-depth knowledge and skills of key business competencies, major business structures, and environments. The programme is designed to prepare students to function effectively as business executives or managers in a wide range of organisational settings.

Whom is this for?

Programme Structure

To graduate with a basic degree, students are to complete a **total of 130 credit units (cu) of courses**, comprising 20 cu of SUSS Core courses, 80 cu of major courses, and 30 cu of a Minor or Free Electives (course pre-requisites apply).

Curriculum Highlights

- Analytics for Decision-Making
- Business Skills and Management
- Organisational Behaviour in the Technology Era
- Contract and Agency Law
- Sustainability, Ethics and Law
- Operations Analytics
- Project Management
- Customer Relationship Management
- Innovation Management and Digital Transformation
- Contemporary Business Strategy
- Economic Ideas and Models for Business
- Essentials of Financial Management

The BSc Business programme trains students in a broad array of business related topics. I am content that this programme has successfully trained more local professionals to competently work in various sectors. This will help to address the shortage of trained professionals in Singapore."

Dr. Tang Pak Kay
Business Development Director (Singapore)
XGATE Pte Ltd.

BSc BUSINESS ANALYTICS

Find out more

Programme Overview

The Bachelor of Science in Business Analytics programme provides students with skill sets that are valuable to organisations operating in the digital era. The programme prepares graduates for engagements with different stakeholders in various phases of an analytics project. To this end, students will read a number of business-related courses to develop core skills across multiple business functions and operations. They will also learn to apply a wide array of data analytics techniques to uncover useful information from business data. They will learn to report and present useful and actionable findings to facilitate managerial decision-making and improve organisation performance.

Graduates of this programme can work in a diverse portfolio of jobs across different types of organisations. These organisations include business analytics vendors and system integrators, consulting and marketing research firms, end-users of business analytics across the private and public sectors, as well as the Institutes of Higher Learning. Relevant job roles include decision science consultants, data mining specialists, modelling specialists, marketing analysts, web analysts and business analysts. Applications of business analytics cover diverse fields including customer relationship management, risk management, fraud detection, service quality and supply chain analysis.

All shortlisted candidates will be invited for an interview, and offers will be made only after the completion of the admission interviews.

You may pursue Business Analytics as a single major or in combination with a Minor.

There are typically several types of organisations that will employ our graduates. They are business analytics vendors and system integrators, consulting and marketing research firms and end-users of business analytics across the private and public sectors. Possible job roles include:

- Business Analyst
- Data Analytics Consultant
- Marketing Consultant
- Operation Executive
- Data Engineer
- Business Intelligence Analyst

Career Prospects

Whom is this for?

This programme is designed for working adults and mature learners whose roles require the ability to interpret and make sense of large volumes of data — whether sourced from the internet, databases, data warehouses, or other platforms.

It is also ideal for IT professionals and individuals from other fields who are seeking a mid-career switch into business analytics.

Programme Structure

To graduate with a basic degree, students are to complete a **total of 130 credit units (cu) of courses**, comprising 20 cu of SUSS Core courses, 80 cu of major courses, and 30 cu of a Minor or Free Electives (course pre-requisites apply).

Curriculum Highlights

- Data Visualisation for Business
- Python for Data Analytics
- Fundamentals of Data Mining
- Predictive Modelling
- Business Analytics Applications and Issues
- Text Mining and Applied Project Formulation
- Business Analytics Applied Project

The *Business Analytics Applied Project* was an enriching experience. As I delved into my research topic, I had the opportunity to revisit and apply theories to broaden my understanding and knowledge."

BSc SUPPLY CHAIN MANAGEMENT

Find out more

Programme Overview

The Bachelor of Science in Supply Chain Management (SCM) programme is the first undergraduate programme from a Singapore university dedicated to this vital field. Our partnership with the Singapore Logistics Association ensures that the curriculum is industry relevant. The curriculum is aligned with the SCM Skills Plan launched by the Singapore Economic Development Board and SkillsFuture Singapore.

The programme prepares students for dynamic careers across five core SCM functions:

1. Supply Chain Planning
2. Sourcing and Procurement
3. Manufacturing and Operations
4. Distribution and Logistics
5. Supply Chain Enablers

Students gain essential domain, digital and green skills to effectively plan and manage the flow of goods, services, and information throughout the supply chain.

All shortlisted candidates will be invited for an interview, and offers will be made only after the completion of the admission interviews.

You may pursue Supply Chain Management as a single major or in combination with a Minor.

As companies strategically reposition their global supply chains, leveraging Singapore and Southeast Asia to diversify manufacturing bases and SCM activities, the demand for skilled professionals is growing. The SCM programme is uniquely designed to contribute to the national objective of building a globally competitive supply chain talent pool. Graduates can look forward to challenging and rewarding career opportunities in roles such as:

- Logistics Operations Executive/ Vertical Specialist
- Demand / Supply Planner
- S&OP Analyst
- Sourcing / Procurement Specialist
- Merchandising Executive
- Materials / Production Planner
- Warehouse Operations Executive
- Transport / Project Executive
- Freight Executive
- Order Management Executive
- Data Analyst

Career Prospects

Whom is this for?

This programme offers **future-ready, industry-aligned, stackable** education pathways serving a diverse range of learners, from working adults seeking to upskill or reskill, to professionals from other disciplines looking for a mid-career switch into SCM.

Programme Structure

To graduate with a basic degree, students are to complete a **total of 130 credit units (cu) of courses**, comprising 20 cu of SUSS Core courses, 80 cu of major courses, and 30 cu of a Minor or Free Electives (course pre-requisites apply).

The 80 cu major courses can be stacked through a modular curriculum that includes five specialist certificates that meet workforce upskilling needs.

Curriculum Highlights

- Demand Planning and Inventory Management
- Supply Planning
- Sourcing and Procurement
- Manufacturing and Service Operations Management
- Warehouse Management
- Freight Management
- Supply Chain Analytics and Modelling
- Supply Chain Management Applied Project

The BSc Supply Chain Management programme provided me with opportunities to stay in touch with industry trends and developments."

Programme Offered in Collaboration with:

BSc FINANCE

Find out more

Singapore is a pre-eminent global financial centre. The rapidly expanding financial sector continues on a growth trajectory, currently accounting for over 12% of GDP. With developments in Asia and beyond, prospects for employment and career growth in a wide range of financial services, including commercial and investment banking, wealth management, risk management and financial advisory services, as well as in FinTech, are promising.

Programme Overview

The Bachelor of Science in Finance programme provides breadth for a broad coverage of current finance and depth into areas of interest such as digital economy, investment, derivatives and FinTech. The curriculum is designed to enable students to enhance their professional credentials in this global financial centre. Graduates from the programme will be equipped with skillsets that is highly valued by the industry. They will have a good understanding of how the capital markets work and they will develop analytical skills that is helpful in the valuation and risk management of financial products. Their exposure to financial assets will develop their personal financial literacy. Acknowledging the changing facet of the financial industry, the programme is constantly refreshed and updated to provide exposure to digital skills such as coding and GenAI tools. With the growing clout of sustainability, students can expect related courses such as green finance and impact investing. Graduates from the Finance programme are job-ready for tomorrow's world.

This programme maintains a strong linkage with the finance industry with knowledge content that is kept up-to-date with current developments. Our partners from the industry include the Chartered Financial Analyst (CFA) Institute, Chartered Alternative Investment Analyst (CAIA) Association and the Financial Planning Association of Singapore (FPAS). Our partners recognise the relevance of our curriculum and sponsors awards or scholarships for outstanding performance in selected Finance courses. Our students are also given exemption from professional exams such as Certified Financial Planner (CFP) if they complete selected Finance courses.

All shortlisted candidates will be invited for an interview, and offers will be made only after the completion of the admission interviews.

You may pursue Finance as a single major or in combination with a Minor.

Career Prospects

This programme equips graduates with skills to take on a wide range of roles in the financial and related sectors, including investment analysts, research analysts, portfolio managers, traders, financial consultants and financial technologists.

Whom is this for?

The Bachelor of Science in Finance programme is targeted at professionals in the financial sector seeking to upgrade their skills, to enhance their career prospects or to switch career paths into finance from other fields. The programme is structured to help students develop their financial knowledge and skill sets in a progressive manner. Students will acquire the ability to think 'out of the box' and to communicate financial information with confidence. The flexibility of our lifelong learning pedagogy allows students to adapt the learning to their pace.

Programme Structure

To graduate with a basic degree, students are to complete a **total of 130 credit units (cu) of courses**, comprising 20 cu of SUSS Core courses, 80 cu of major courses, and 30 cu of a Minor or Free Electives (course pre-requisites apply).

Curriculum Highlights

- Data Technologies for Financial Modelling
- Decision Making for Financial Managers
- Financial Markets
- Mathematics and Programming for FinTech
- Machine Learning and AI for FinTech
- Impact Investing and Green Finance
- Equity Securities
- Fixed Income and Derivative Securities

Balancing my studies and work at Panda Bank has been an incredibly enriching journey. Working full-time while studying has allowed me to seamlessly integrate academic theories with practical experience. Thanks to the flexibility of SUSS's curriculum and support from the professors, I have been able to manage both commitments effectively."

BSc MARKETING

Find out more

Programme Overview

Marketing is an applied domain that draws from the basic disciplines of psychology, economics and statistics to help companies ensure that the products and services they offer are desired and purchased by consumers. What to sell, at what price, where to sell, and to whom should they target their advertising and sales efforts at are some of the questions competent marketing professionals answer.

To be a competent marketing professional, you will need a good foundation in all aspects of business as well as an in-depth understanding of the marketing domain.

The Bachelor of Science in Marketing programme will provide you with contemporary specialised marketing knowledge with additional competencies in business and general management. The specialised marketing courses offered at SUSS will help you understand and effectively manage key functional areas of marketing. This, coupled with a suite of courses covering the core disciplines of business and management, will afford you the ability to see the big picture and understand how marketing can be seamlessly integrated with the rest of the activities in a company to maintain a competitive edge in any industry.

All shortlisted candidates will be invited for an interview, and offers will be made only after the completion of the admission interviews.

You may pursue Marketing as a single major or in combination with a Minor.

Career Prospects

Graduates of this programme can serve as managers/executive officers in companies from all industries, or in similar positions in the public sector. They can excel in the following marketing careers: advertising and promotion, public relations, corporate communications, customer support service, digital marketing, marketing and consumer research, product and brand management, purchasing and merchandising, retailing and wholesaling, sales and sales management, and services marketing.

Whom is this for?

This programme is suitable for applicants from any sector looking for a specialised marketing qualification with integrated competencies in key areas of business and management. It is also suitable for applicants with non-business qualifications and experiences who are working towards a career-switch into marketing.

To graduate with a basic degree, students are to complete a **total of 130 credit units (cu) of courses**, comprising 20 cu of SUSS Core courses, 80 cu of major courses, and 30 cu of a Minor or Free Electives (course pre-requisites apply).

Programme Structure

Curriculum Highlights

- Digital Marketing
- AI and Marketing
- Consumer Behaviour
- Customer Insights and Analytics
- Services Marketing
- Sustainability Marketing
- Brand Management
- Integrated Marketing Communications
- Starting and Managing a Business

As a full-time working professional and dad pursuing a part-time degree at SUSS, I find the programme flexible and well-suited to my busy schedule. The curriculum offers practical skills, and the instructors are supportive. Juggling work, family, and study is challenging and can be lonely at times, requiring discipline and resilience. However, the university's resources are incredibly helpful. I highly recommend this programme for anyone looking to advance their career while managing professional commitments."

SCHOLARSHIPS AND FINANCIAL AID

SUSS offers scholarships to outstanding students pursuing their undergraduate studies with the University in recognition of their excellent academic achievements, leadership qualities, special talents and contributions.

There are also various types of financial aid available to students who need financial assistance during the course of their study.

Please visit suss.edu.sg for more details on the admission criteria, tuition fees and other information.

Featured Events

CFA Research Challenge 2025

Members of the SUSS Investment Group (SIG) dedicated countless hours and many late nights preparing for their CFA Research Challenge 2025 report and presentation. Their commitment, teamwork, and rigorous research paid off — they delivered an outstanding presentation that earned them an impressive overall 2nd place in the competition. In addition to this remarkable achievement, SIG's report was recognised by a panel of distinguished judges as the Best Report, highlighting the team's excellence in financial analysis and communication. The SIG team's success is a testament to their hard work, perseverance, and passion for investment research.
