

PARTNERS FOR THE GREATER GOOD

“ SUSS will champion disciplines that positively impact society and its development. Part of this is to build a strong niche in the social sciences, such as social work, early childhood education, and human resource management. In addition, it will infuse the mission of social development into other disciplines. This is increasingly important, as we need to balance economic growth with social development; globalisation with a strong sense of community and nationhood. ”

MR ONG YE KUNG
MINISTER FOR EDUCATION

“ Education is an investment, with lifelong benefits. It opens doors to the world of knowledge, to opportunities unlimited. It brings hope, reduces inequalities, and bridges divides. No one who wants an education should be deprived of it because of inability to meet the financial cost. ”

PROFESSOR CHEONG HEE KIAT
