

## Short Courses

Course Title	Course Fee (\$) Before Subsidy and GST	Duration	Level of proficiency	Course Date	Critical Area
<p><a href="#">A Design Thinking Mindset</a></p> <p>This course introduces the idea of design as a model for innovation based on human-centric observation and prototyping. A design mindset is one that looks at problems and challenges from the users' mental models, and in designing the solution, to take into consideration the value created for them.</p>	1400	2 days	Basic	28 Feb & 1 Mar 19	Entrepreneurship
<p><a href="#">Human Centred Design: Re-Imagined</a></p> <p>This course examines how a SERVICE which is a non-physical transaction between buyer and seller has evolved from the physical world to the digital. We will discuss the application of technology in maximising SERVICE offerings for better effectiveness and efficiency.</p>	2000	3 days	Intermediate	13, 20, 27 Feb 19 17, 24 Apr, 8 May 19	Tech-Enabled Services
<p><a href="#">Smart Contract Programming for Businesses</a></p> <p>The course will provide an introduction to the Ethereum blockchain, discuss the costs of executing a smart contract on the Ethereum blockchain, and present a comprehensive overview and hands-on exercise on coding smart contracts using the Solidity programming language.</p>	1100	2 days	Intermediate	TBA	Data Analytics, Finance, Tech-Enabled Services
<p><a href="#">Digital Photography as an Art Form</a></p> <p>This course covers the theoretical aspects of digital photography so that the students understand the scientific aspects of digital photography</p>	1400	2 days	Basic	23 & 24 Mar 19	Digital Media, Tech-Enabled Services, Entrepreneurship
<p><a href="#">Photography: the Creative Medium</a></p> <p>This course will equip you with skills to be an all-rounded photographer, enabling you to specialise in your chosen genre.</p>	1400	2 days	Basic	30 Mar & 6 Apr 19	Digital Media, Tech-Enabled Services, Entrepreneurship
<p><a href="#">Data Mining for Decision Making</a></p> <p>Business leaders have many reasons to be interested in data mining.</p>	650	1 day	Basic	TBA	Data Analytics
<p><a href="#">Text Mining and Big Data for Decision Making</a></p> <p>Discover how big data analytics and text mining can be integrated into the decision making process.</p>	650	1 day	Basic	TBA	Data Analytics

Course Title	Course Fee (\$) Before Subsidy and GST	Duration	Level of proficiency	Course Date	Critical Area
<b><a href="#">Visualisation for Decision Making</a></b> See how data visualisation transforms data into meaningful insights for successful decision making.	650	1 day	Basic	26-Apr-19	Data Analytics
<b><a href="#">Introduction to VR Filmmaking &amp; Photography</a></b> Imagine the places you can see and experience without leaving your chair. Welcome to the world of Virtual Reality 360.	650	1 day	Basic	TBA	Digital Media, Tech-Enabled Services
<b><a href="#">Cloud Computing for all</a></b> A beginner’s guide to all things on the “cloud”.	650	1 day	Basic	20-Mar-19 18-Jun-19 9-Jul-19 8-Nov-19	Tech-Enabled Services
<b><a href="#">Cloud Computing for Managers 1</a></b> Find out what it takes to move your business applications and data to the cloud.	650	1 day	Intermediate	10-Apr-19 29-Aug-19	Tech-Enabled Services
<b><a href="#">Cloud Computing for Managers 2</a></b> A seven-step cloud migration process to move your business applications and data to the cloud.	650	1 day	Advanced	23-Apr-19 22-Nov-19	Tech-Enabled Services
<b><a href="#">Introduction to Cybersecurity</a></b> Do you want to better understand online security and protect your digital life?	650	1 day	Basic	27-Mar-19 13-Jun-19 2-Jul-19 1-Nov-19	Cybersecurity
<b><a href="#">Cybersecurity – Application security by design</a></b> Security consideration in our systems design should not be an afterthought.	650	1 day	Intermediate	3-Apr-19 27-Aug-19	Cybersecurity
<b><a href="#">Cybersecurity – A Holistic Approach</a></b> It’s time to consider a holistic approach to cybersecurity.	650	1 day	Advanced	22-Apr-19 15-Nov-19	Cybersecurity
<b>Digital Skills for Financial Planners</b> Use social media and digital marketing platforms and tools to improve their lead generation so that the financial planners can improve their sales	1400	2 days	Basic	TBA	Data Analytics, Tech-Enabled Services, Digital Media
<b>Digital Skills for Wholesales Trade</b> To equip workers with the knowledge of the digital impacts in the Wholesle Trade Sector which includes E-commerce, Internationlisation, and Digitalisation and Future Ready Work trends. To prepare participant for new technological challenges and disruptions in the Wholesle Trade Sector. This course will also impart knowledge on Internet of Things (IOTs) and Data Analytics. Use Data Analytics to manage customers and make better decision in their service offering to customers	500	1 day	Basic	TBA	Data Analytics, Tech-Enabled Services, Digital Media

Course Title	Course Fee (\$) Before Subsidy and GST	Duration	Level of proficiency	Course Date	Critical Area
<p><b><u>Growing your small business</u></b>            In this course you will understand your business better. The course will enable you to grow your business to the next level, understand and identify the unique selling point of their product/service and the critical success factor(s). The course will help participants to grow their micro/small business to the next level and sustain it.</p>	1400	2 days	Basic	9 & 16 Apr 19 6 & 13 Jul 19	Entrepreneurship
<p><b><u>Pricing</u></b>            This course will look at pricing from economics and marketing perspectives, as well as business strategy perspective. Enable participants to make knowledgeably decisions with regard to pricing their products. This course shall examine how to price products? What do different prices mean? Do prices convey any message to customers? How to increase (maximize) profits by adopting the right pricing strategy?</p>	700	1 day	Intermediate	13 Apr 19 20 Jun 19	Entrepreneurship
<p><b><u>Managing Profitability</u></b>            Profitability is the major objective of doing business. To increase profitability we need to have a good understanding of what is profits and what are costs. It will demonstrate how to keep your accounting records with zero accounting knowledge and would also examine what is profitability and cost. In this course we will look at how to identify product profitability.</p>	700	1 day	Intermediate	12 & 13 Mar 19 <sup>#</sup> 11 Jul 19	Entrepreneurship
<p><b><u>S.O.M.E. Team Management is just Football</u></b>            This course will look at how to get the best out of our staff collectively, and align them with the business. The people in an organization are the roots on which business success is built on. The course would enable participants to foster a vision buy in from the staff and how to get the best out of the staff as a team. Football will be used throughout the course as a metaphor and example.</p>	700	1 day	Intermediate	15 Apr 19 22 Jun 19	Entrepreneurship
<p><b><u>SME+</u></b>            The training module is targeted at SME Owners and/or Senior leaders. The focus will initially be on F&amp;B Industry including food manufacturers and hospitality. This module focuses on the leader and creates a transformation program that starts with leadership as the driving force behind the SME. This module starts with diagnostics of the leader; leaders need to understand themselves and build on their strengths. The leaders also need to transform the business to maximise their market interaction. Building up their leadership capacity will help them in this quest. The market is the focus of the business. This module recognises that and transforms the driver i.e. Self (leadership) and the interaction with Market into Excellence (in short SME+)</p>	3000	3 days	Intermediate	TBA	Finance, Tech-Enabled Services, Entrepreneurship
<p><b><u>Workshop on The New Order of Global Economy</u></b>            In this course, we will discuss the digital revolution and compare it with previous industrial revolutions. The current Industrial Revolution 4.0 is evolving at an exponential pace. The speed of its breakthroughs is unprecedented, the disruption it creates transforms almost every industry in every country, and the impacts on individuals, civil societies and governments demand personal and collective responses.</p>	1300	2 days	Basic	TBA	Digital Media, Tech-Enabled Services, Cybersecurity
<p><b><u>Angel Investing Fundamental Series by AngelCentral</u></b>            This course aims to equip the attendees with the knowledge and skills needed to become a competent angel investor. It covers tech startup ecosystem brief, investment process, portfolio construction, deal flow, evaluation techniques, legal understanding, co-investment techniques and best practices for angel investments.</p>	2000	5 days	Basic	9 Feb – 9 Mar 19	Finance, Entrepreneurship

# 2.00pm to 6.00pm

Course Title	Course Fee (\$) Before Subsidy and GST	Duration	Level of proficiency	Course Date	Critical Area
<p><b><u>Fundamentals of Advertising and Social Media Design</u></b>  Social media is much more than posting of content. It is a strategic marketing tool with a “viral” intent to reach out to target audience. The conversation nature of a public and one-on-one medium, social media has the potential to shape public conversations and perceptions, build brand awareness and loyalty, attract readers, followers, partners and customers - even create brand evangelists.</p>	650	1 day	Basic	21-May-19 19-Nov-19	Digital Media, Tech-Enabled Services, Entrepreneurship
<p><b><u>Tools for Advertising and Social Media Design</u></b>  Learn the tools of the trade and begin to design through the content visualisation and structure of type, pictures and colour. Begin to understand the process of pre-planning and how to work with layout.</p>	1300	2 days	Intermediate	TBA	Digital Media, Tech-Enabled Services, Entrepreneurship
<p><b><u>Projects in Advertising and Social Media Design</u></b>  This course challenges students to conceptualize, create, and build a print or web page. Learn also how to polish and place effective messaging executions in social media and other web channels.</p>	1300	2 days	Advanced	TBA	Digital Media, Tech-Enabled Services, Entrepreneurship
<p><b><u>Introduction to Branding Using Social Media</u></b>  This course is to find out what social media marketing is and understand why it is important. Looking at case studies, students will identify how companies benchmark and set goals for social media marketing.</p>	650	1 day	Basic	TBA	Digital Media, Tech-Enabled Services, Entrepreneurship
<p><b><u>Tools for Branding Using Social Media</u></b>  In this course, students will begin to create a strategy and plan to manage their own social media branding campaign. Understand how to deal with social listening and online reputation management and define approaches for the core social media platforms.</p>	1300	2 days	Intermediate	TBA	Digital Media, Tech-Enabled Services, Entrepreneurship
<p><b><u>Branding Strategies &amp; Planning Using Social Media</u></b>  Students develop and launch a social media plan with a focus on branding, and analyze how social media impacts the branding efforts. Learn how to define social media communication strategies and manage Social Media Optimisation (SEO).</p>	1300	2 days	Advanced	11 & 12 Apr 19 4 & 5 Jul 19	Digital Media, Tech-Enabled Services, Entrepreneurship
<p><b><u>Understanding Digital Analytics</u></b>  This course will be introduced into the world of Digital Analytics. Understand and learn how digital analytics can be applied in the business context, particularly on the search engine and social media space by leveraging free online tools.</p>	650	1 day	Basic	16-Mar-19 13 Jul 2019 17 Aug 2019 7 Sep 2019 5 Oct 2019 16 Nov 2019 7 Dec 2019	Digital Media, Tech-Enabled Services, Data Analytics
<p><b><u>Managing Digital Analytics</u></b>  In this course, students will be exposed to the whole scope of Analytics that includes: descriptive, diagnostic, prescriptive and predictive analytics. Students will also be introduced to the key components of an analytics platform and how to source, transform, store deliver and visualise information.</p>	1300	2 days	Intermediate	22 & 23 Aug 19 6 & 7 Nov 19	Digital Media, Tech-Enabled Services, Data Analytics
<p><b><u>Analysing &amp; Presenting Digital Analytics</u></b>  In this course, students will learn by doing through the collection and analysis of real digital media campaign data. Students will be able to implement suitable measurement mechanisms to employ, identify the data points and master the proper approach for analysing and presenting the data.</p>	1300	2 days	Advanced	24 & 25 Apr 19 22 & 23 Aug 19	Digital Media, Tech-Enabled Services, Data Analytics

Course Title	Course Fee (\$) Before Subsidy and GST	Duration	Level of proficiency	Course Date	Critical Area
<p><b><a href="#">FinTech Innovation System</a></b>  This course introduces participants to the idea of proof of concept in building start-ups within a FinTech Innovation System.</p>	1100	2 days	Intermediate	TBA	Finance
<p><b><a href="#">Segregated Witness &amp; Lightning Network: Implications on the Future of Payment</a></b>  The course will provide a brief introduction on the structure of blockchains, and cover the recent debate on the scalability issues of the Bitcoin blockchain, which eventually resulted in a hard-fork on the Bitcoin blockchain. It also include a thorough review of the design principles of Segregated Witness, how it solves the transaction malleability issue and eventually became the enabling technology for Lightning Network.</p>	1100	2 days	Intermediate	TBA	Finance
<p><b><a href="#">Cryptography and Privacy in Blockchain</a></b>  This course will introduce cryptography and privacy-preserving techniques used in blockchain, along with hands-on exercises on these techniques.</p>	1100	2 days	Intermediate	TBA	Finance
<p><b>Introduction to QTUM and underlying Technologies</b>  This course will learn about the backbone technologies of blockchain or a software developer who aspires to build your own Dapps.</p>	1100	2 days	Intermediate	TBA	Finance
<p><b><a href="#">Blockchain Privacy: An introduction to privacy protocols and their applications for blockchains</a></b>  This course will learn about the history of privacy protocols and explore their use in modern-day technologies and blockchain applications.</p>	1100	2 days	Intermediate	TBA	Finance
<p><b><a href="#">Token Swaps: A technical and practical introduction to the economics of the blockchain</a></b>  This course enables participants to design the flow of a “token swap”, also known as “ICO” or “Initial Coin Offering”.</p>	1100	2 days	Intermediate	TBA	Finance
<p><b>Distributed “Tic Tac Toe”: Playing with the Blockchain consensus</b>  This course is specially designed to provide a solid understanding of the fundamentals of technology in revolutionising the finance world.</p>	1100	2 days	Intermediate	TBA	Finance
<p><b>Blockchain &amp; AI in FinTech &amp; Insurtech: A Practical Guide to Navigating the Landscape</b>  This course will look at the current state of AI and blockchain in China and the West and what various jurisdictions are doing/not doing to create new systems. Guided by practical examples, case studies and the instructor’s experiences with six investments in fintech, blockchain and quantum computing.</p>	1100	2 days	Intermediate	TBA	Finance

Course Title	Course Fee (\$) Before Subsidy and GST	Duration	Level of proficiency	Course Date	Critical Area
<p><b><u>Integrated Circuits and Registered Design</u></b> The course objective introduces participants to the concepts of registered and non-registered design of Integrated Circuits and the legal mechanisms for protection.</p>	650	1 day	Intermediate	TBA	Tech-Enabled Services, Digital Media, Entrepreneurship
<p><b><u>Essentials of Supply Chain Management</u></b> This course introduces the fundamental concepts of the supply chain. We consider the issues when designing, planning or operating a supply chain. Students learn about the major drivers of supply chain performance and how each impact on performance. Students will consider the design of a distribution and transport network for the supply chain, particularly in the context of e-commerce.</p>	650	1 day	Basic	TBA	Tech-Enabled Services, Digital Media
<p><b><u>Supply Chain Design and Planning</u></b> This course examines facility-related decisions that companies should take into account when designing their supply chain network. We look at the uncertainties in demand that impact supply chain decisions, identify sources of risk for global supply chains and discuss strategies to mitigate risk. Students are equipped with the skills to match demand with available supply in the most optimal manner, balancing capacities and raw material procurement against customer forecasts.</p>	650	1 day	Intermediate	TBA	Tech-Enabled Services, Digital Media
<p><b><u>Supply Chain Cross-Functional Drivers and Performance Benchmarking</u></b> This course examines the cross-functional drivers of supply chain performance – sourcing, information and pricing. We look at outsourcing decisions in a supply chain and consider the associated benefits and risks. We focus on the role and importance of IT to the success of a supply chain. We discuss the application of pricing and revenue management in maximising supply chain profits. We focus on the problems associated with the lack of coordination on a supply chain due to the bullwhip effect, which results in higher costs throughout the supply chain and degradation of customer service level. We look at the importance of benchmarking for improving supply chain performance and introduce the Supply Chain Operations Reference (SCOR) approach to benchmarking and best practice implementation.</p>	650	1 day	Advanced	TBA	Tech-Enabled Services, Digital Media
<p><b><u>Introduction to GIS</u></b> This course has two parts. The first part offers an introduction to GIS and outlines the components of GIS. The second part describes the different sources of geospatial data collection as a basic understanding of how the data is collected leads to a better appreciation of data quality.</p>	650	1 day	Basic	TBA	Data Analytics, Tech- Enabled Services, Urban Solutions
<p><b><u>GIS Applications</u></b> This course has two parts. First, it discusses the concept of data models. It is important to understand the data model as it underpins the planning of geospatial data in a GIS. The second part of the course describes the GIS applications for the different fields to demonstrate the many ways that GIS can be exploited.</p>	650	1 day	Intermediate	TBA	Data Analytics, Tech- Enabled Services, Urban Solutions
<p><b><u>GIS and BIM for the Built Environment</u></b> The course has two parts. First, it covers in detail the two areas of GIS which really demonstrate GIS as a powerful enabling technology. For the construction industry, BIM is the other technology that will impact the productivity of the industry.</p>	650	1 day	Advanced	TBA	Data Analytics, Tech- Enabled Services, Urban Solutions
