

How to arrange your projects in Portfolio?

Not every recruiter will have time to click into every project you create, so you will want to be sure to customise the order of your projects and list your best projects first.

To do so, simply click on the “...” symbol and select “Edit”:

A window will pop up on the left side of your screen. When you see it, go to "Projects", and choose the projects you would like to attach to this particular section:

Once you have chosen the projects, arrange the order of your projects by clicking the button beside "Arrange order". You may change the order of your projects by dragging projects up or down while clicking the symbol on the left, or by changing the number next to the project:
