

ACC351 Forensic Accounting

Level: 3

Credit Units: 5 Credit Units

Language: ENGLISH

Presentation Pattern: EVERY JAN

Synopsis:

ACC351 Forensic Accounting provides an understanding of white collar crimes in Singapore by analysing real case studies of major crimes. Students will be taught the investigation methodology in the detection of fraud and the use of information technology forensics and social media tracing to examine documents and evidence within the Singapore legal, regulatory and professional rule-based environment. Various fraudulent schemes will be examined including cash receipt, cash disbursement, defalcation and cyber-crimes. Finally, the course teaches students effective interviewing and interrogation techniques, and the role of an expert witness.

Topics:

- Introduction to white collar crime investigation
- Criminology and ethics, complex frauds and financial crimes
- Cybercrime: computer and internet fraud
- Legal, regulatory and professional environment
- Fraud detection: red flags and targeted risk assessment, detection and investigations
- Effective interviewing and interrogation
- Using information technology for fraud examination and financial forensics
- Cash receipt schemes and other asset misappropriations
- Cash disbursement schemes
- Corruption and the human factor, financial statement fraud
- Consulting, litigation support and expert witnesses
- Case studies of Singapore white collar crimes
