Synopsis:

ECE217 Integrating the Arts across the Curriculum for Children is about using the arts as a teaching and learning tool in the classroom. Arts integration creates opportunities for creative and critical thinking, risk taking, problem solving and most importantly, self-regulation and self-expression. This course aims to equip teachers with skills and ideas for planning and teaching through the arts. Teachers will be able to better understand the needs and interests of young children and engage them in purposeful arts experiences. The integration of the arts into the curriculum provides a key instructional strategy for the development of the whole child.
