

FIN381e Governance, Risk Management and Compliance

Level: 3

Credit Units: 5 Credit Units

Language: ENGLISH

Presentation Pattern: EVERY JAN

E-Learning: BLENDED - Learning is done MAINLY online using interactive study materials in Canvas. Students receive guidance and support from online instructors via discussion forums and emails. This is supplemented with SOME face-to-face sessions. If the course has an exam component, this will be administered on-campus.

Synopsis:

This course provides students with an overview of various risks that can threaten the attainment of organizational objectives and the building of control frameworks to identify, understand and manage risks. Students will learn the important tools for measuring and transferring various risks, increasing risk-management transparency in an organization, and implementing an organization-wide enterprise risk management (ERM) approach. The course also aims to enhance students' understanding and assessment of forward-looking governance and compliance programmes, controlling compliance infrastructures, measuring and monitoring ongoing governance and compliance practices that are crucial in building a culture of doing the right thing.

Topics:

- An overview of the financial services industry and historical financial crises
- Post-crisis regulatory framework and capital adequacy
- Regulations on financial institutions in Singapore and compliance procedures
- Corporate governance and risk management
- Interest rate risks and hedging strategies
- Market risk management: Value-at-risk and beyond
- Asset/liability management
- Credit risk management : Individuals and Portfolios
- Credit risk management: Counterparty Risk
- Operational risk management
- Enterprise risk management
- Stress testing and scenario analysis

Textbooks:

SAUNDERS, CROUHY: CUST FIN381 GOVERNANCE, RISK MANAGEMENT AND COMPLIANCE MCGRAW
