

FIN511 Managing Finance in an Organisation

Level: 5

Credit Units: 2.5 Credit Units

Language: ENGLISH

Presentation Pattern: EVERY JAN

Synopsis:

Managing Finance in an Organisation covers fundamental concepts in corporate finance and financial management. With the financial innovations of recent decades, modern corporate finance has become a highly complex area of expertise. This course presents the basic tools and techniques required to address the key questions pertaining to financial managers: What investment projects should the company undertake? How should these investments be financed? How to evaluate the financial health of a company? The goal of the course is to give student an insight into financial management process and lay out a foundation framework for making sound investment and financing decisions.

Topics:

- The objectives of a corporation and the role of a financial manager
- The time value of money and discounted cash flow valuation
- Net present value and other investment criteria
- Capital budgeting and cost of capital
- Financial reporting and financial statement analysis
- Risk analysis
- Ethics in Finance
