

OEL101 Overseas Experiential Team-building

Level: 1

Credit Units: 2.5 Credit Units

Language: ENGLISH

Presentation Pattern:

Synopsis:

The objective of OEL101 Overseas Experiential Team-building is to provide students with an overseas platform to cultivate a common SUSS identity, and to develop foundational aptitudes in self-awareness, community mindedness, and environmental consciousness. This is achieved through a combination of e-learning, experiential learning, and on-site training. Through engaging in activities like group performances, community engagements, and wilderness trekking, students would become attuned to the interdependence between the self, community, and physical environment. This would provide a strong foundation for their next few years of education in the use of the sciences in the service of others.

Topics:

- Risk Assessment and Method Statement
- Understanding Identity
- Appreciating Life Journeys
- Clarifying Values
- Community Engagement Values, Principles, and Practices
- Community Mindedness
- SPIRIT Core Values
- Head, Heart, and Habit
- Sustainability Values, Principles, and Practices
- Leave No Trace

Learning Outcome:

- Identify potential risks associated with local and overseas programmes
- Apply risk assessment and mitigation methods
- Explain how their own aptitudes and social environments shape their identities
- Explain how humans maintain sustainable relationships with their physical environments
- Locate personal values in relation to group values in community engagement
- Practise community mindedness
- Demonstrate self-awareness
- Demonstrate environmental consciousness
